SUBPART E—CASH REDEMPTION AT OR BEFORE MATURITY

SUBPART F—PAYMENT OR REISSUE TO OTHER THAN INSCRIBED OWNER

SUBPART G—GENERAL PROVISIONS

AUTHORITY: §§ 331.1 to 331.30 issued under sec. 1, 40 Stat. 288, as amended; 31 U. S. C. 752.

SUBPART A—OFFERING OF NOTES

§ 331.1 *Offering of notes.* The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, offers for sale to the people of the United States, at par and accrued interest as provided in § 331.12, an issue of notes of the United States designated Treasury Savings Notes, Series A., which notes, if inscribed in the name of a Federal taxpayer, will be receivable as hereinafter provided at par and accrued interest in payment of income, estate and gift taxes imposed by the Internal Revenue Code, or laws amendatory or supplementary thereto. The notes may also be redeemed for cash at par and accrued interest, with certain exceptions applicable to banking institutions, as provided in § 331.16.

§ 331.2 *Withdrawal of Series D Notes.* The sale of Treasury Savings Notes, Series D, offered under Department Circular No. 833 (Part 327 of this subchapter), dated August 17, 1948, as amended, is hereby terminated at the close of business May 14, 1951.

§ 331.3 *Duration of offer.* The sale of notes of Series A offered by this circular will begin on May 15, 1951, and will continue until terminated by the Secretary of the Treasury.

§ 331.4 *Definitions.* (a) The word "month" as used in this part means the period from and including the 15th day of any one calendar month to but not including the 15th day of the next succeeding month.

(b) The words "issue date" mean the date as of which a note is issued and will always be the 15th day of a calendar month.

(c) The words "interest accrual date" or "accrual date" mean the date upon which a month's interest accrues on a note, the first accrual date being the 15th day of the calendar month next following the issue date.

SUBPART B—DESCRIPTION OF NOTES

§ 331.5 *General.* Treasury Savings Notes, Series A, will in each instance be dated as of the 15th day of a calendar month. The issue date will be determined by the day of the month on which payment at par and accrued interest, if any, is received and credited by an agency authorized to issue the notes. For example, payment received and credited on any day during the period from and including May 15, 1951, to and including June 14, 1951, would result in the issue of notes dated May 15, 1951. They will mature three years from that date and may not be called by the Secretary of the Treasury for redemption before maturity. All notes bearing issue dates within any one calendar year shall constitute a separate series indicated by the letter "A" followed by the year of maturity. At the time of issue the issuing agency will inscribe on the face of each note the name and address of the owner, will enter the issue date and will imprint its dating stamp (with current date). The notes will be issued in denominations of $100, $500, $1,000, $5,000, $10,000, $100,000, $500,000 and $1,000,000. Exchange of authorized denominations from higher to lower, but not from lower to higher, may be arranged at any agency that issues Treasury Savings Notes, Series A.

§ 331.6 *Acceptance for taxes or cash redemption.* If inscribed in the name of an individual, corporation, or other entity paying income, estate or gift taxes imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto, the notes will be receivable, subject to the provisions of § 331.15, at par and accrued interest, in payment of such income, estate or gift taxes assessed against the owner or his estate. If not presented in payment of taxes, or if not inscribed in the name of a taxpayer liable to the above-described taxes, and subject to the provisions of § 331.16, the notes will be payble at maturity, or at the owner's option and request they will be redeemable before maturity at par and accrued interest.

§ 331.7 *Interest.* Interest on each $1,000 principal amount of Treasury Savings Notes, Series A, will accrue monthly on the 15th calendar day of each month after the issue date on a graduated scale, as follows:

	Each month
First to Sixth months, inclusive	$1.20
Seventh to Twelfth months, inclusive	1.50
Thirteenth to Eighteenth months, inclusive	1.60
Nineteenth to Twenty-fourth months, inclusive	1.70
Twenty-fifth to Thirty-sixth months, inclusive	1.80

The table appended to this circular shows for notes of each denomination, for each consecutive month after issue date to maturity, (a) the amount of interest accrual, (b) the principal amount of the note with accrued interest (cumulative) added, and (c) the approximate investment yields. Subject to the provisions of §§ 331.15 and 331.16, when Treasury Savings Notes, Series A, are to be paid on an interest accrual date, the payment will include interest accruing on that date; otherwise, interest will be paid only to the interest accrual date next preceding the date of payment. Interest will be paid only with the principal amount, and will not accrue beyond the maturity date of the note.

§ 331.8 *Forms of inscription.* Treasury Savings Notes, Series A, may be inscribed in the name of an individual, corporation, unincorporated association or society, or a fiduciary (including trustees under a duly established trust where the notes would not be held as security for the performance of a duty or obligation), whether or not the inscribed owner is subject to taxation under the Internal Revenue Code, or laws amendatory or supplementary thereto. They may also be inscribed in the name of a town, city, county or State or other governmental body and in the name of a partnership, but notes in the name of a partnership are not acceptable in payment of taxes, since a partnership is not a taxpaying entity under the Internal Revenue Code. The notes will not be inscribed in the names of two or more persons as joint owners or coowners; or in the name of a public officer, whether or not named as trustee, where the notes would in effect be held as security for the performance of a duty or obligation.

§ 331.9 *Nontransferability.* The notes may not be transferred in ordinary course; except that (a) if inscribed in the name of a married man they may be reissued in the name of his wife, or if inscribed in the name of a married

woman they may be reissued in the name of her husband, upon request of the person in whose name the notes are inscribed and the surrender of the notes to the agency that issued them; (b) if inscribed in the name of a corporation owning more than 50 percent of the stock, with voting power, of another corporation, the notes may be reissued in the name of the subsidiary upon request of the corporation and surrender of the notes to the agency that issued them; (c) upon the death or disability of an individual inscribed owner or the dissolution, consolidation or merger of a corporation, unincorporated association or partnership named as owner, reissue or payment may be made in accordance with §§ 331.22 and 331.23; and (d) payment but not reissue, may be made as a result of legal proceedings as set forth in §§ 331.24 and 331.25. The notes may not be hypothecated and no attempted hypothecation or pledge as security will be recognized by the Treasury Department: *Provided, however,* That the notes may be pledged as collateral for loans from banking institutions and if title thereto is acquired by a bank because of the failure of a loan to be paid, the notes will be redeemed at par and accrued interest to the interest accrual date next preceding the date of such acquisition, unless acquired on an interest accrual date, on surrender to the agency which issued them, accompanied by proof of the date of acquisition and by request of the pledgee under power of attorney given by the pledgor in whose name the notes are inscribed. The notes will not be transferred to a pledgee. The notes will not be acceptable to secure deposits of public moneys.

§ 331.10 *Taxation.* Income derived from the notes shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code or laws amendatory or supplementary thereto. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

SUBPART C—PURCHASE OF NOTES

§ 331.11 *Official agencies.* In addition to the Treasury Department, the Federal Reserve Banks and their Branches are hereby designated agencies for the issue and redemption of Treasury Savings Notes, Series A. The Secretary of the Treasury, from time to time, in his discretion, may designate other agencies for the issue of the notes, or for accepting applications therefor, or for making payments on account of the redemption thereof.

§ 331.12 *Applications and payment.* Applications will be received by the Federal Reserve Banks and Branches and by the Treasurer of the United States, Washington, D. C. Banking institutions generally may submit applications for the account of customers but only the Federal Reserve Banks, their Branches and the Treasury Department are authorized to act as official agencies. The use of an official application form is desirable but not necessary. Such forms may be obtained upon request from any Federal Reserve Bank or Branch or the Treasurer of the United States. Every application must be accompanied by payment in full, at par and accrued interest, if any. The amount of accrued interest payable by the purchaser will be computed at the rate at which interest accrues on the notes ($1.20 per month per $1,000 par amount) for the actual number of days from but not including the issue date to and including the date funds are credited to the account of the Treasurer of the United States. For example, if funds are credited on the 20th day of January the issue date will be January 15, and five days' accrued interest must be paid by the purchaser. If collection is delayed so that credit is not given until February 15, the issue date will be February 15, and no accrued interest will be collectible. One day's accrued interest for a thirty-one day period is $0.03871 per $1,000, for a thirty day period $0.04 per $1,000, for a twenty-nine day period $0.04138 per $1,000, and for a twenty-eight day period $0.04286 per $1,000. Any form of exchange, including personal checks, will be accepted, subject to collection, and should be drawn to the order of the Federal Reserve Bank or the Treasurer of the United States, as payee, as the case may be. Any depositary qualified pursuant to the provisions of Treasury Department Circular No. 92, Revised (Part 203 of this chapter), as amended, will be permitted to make payment by credit for notes applied for on behalf of itself or its customers up to any amount for which it shall be qualified in excess of existing deposits.

§ 331.13 *Reservations.* The Secretary of the Treasury reserves the right to reject any application in whole or in part, and to refuse to issue or permit to be issued hereunder any notes in any case or in any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final. If an application is rejected, in whole or in part, any payment received therefor will be refunded.

§ 331.14 *Delivery of notes.* Upon acceptance of a full-paid application, notes will be duly inscribed and, unless delivered in person will be delivered, at the risk and expense of the United States at the address given by the purchaser, by mail, but only within the United States, its Territories and Island Possessions, and the Canal Zone. No deliveries elsewhere will be made.

SUBPART D—PRESENTATION IN PAYMENT OF TAXES

§ 331.15 *Presentation in payment of taxes.* At any time after two months from the issue date, during such time and under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe, notes issued hereunder in the name of a Federal taxpayer, may be presented by such taxpayer, his agent or his estate for credit against any income (current and back, personal and corporation taxes, and excess profits taxes) or any estate or gift taxes (current and back) imposed by the Internal Revenue Code, or laws amendatory or supplementary thereto, assessed against the inscribed owner or his estate. For example, a note dated January 15 may be presented for credit against taxes due March 15. The notes will be receivable by the Collector at par and accrued interest to the day (but no accrual beyond maturity) when the taxes are due, if such day falls on the 15th day of a calendar month, whether the notes are received on or before that day. If the taxes are due on any other day of the month than the 15th, accrued interest will be credited to the accrual date next preceding the day when the taxes are due. Notes are receivable only in payment of taxes equal to or exceeding the entire value of the notes, including accrued interest. The notes must be forwarded to the Collector at the risk and expense of the owner and, for his protection, should be forwarded by registered mail, if not presented in person.

SUBPART E—CASH REDEMPTION AT OR BEFORE MATURITY

§ 331.16 *General.* Any Treasury Savings Note, Series A, not presented in payment of taxes will be paid at maturity, or, at the option and request of the owner, and without advance notice, will be redeemed before maturity, at any time after four months from the issue date. For example, a note dated January 15 may be redeemed for cash on or after May 15. If redemption prior to maturity is requested on an interest accrual date the redemption will include interest accruing on that date, otherwise redemption will be at par and accrued interest to the interest accrual date next preceding the redemption date, except in the case of a note inscribed in the name of a bank that accepts demand deposits, in which case payment, whether at or before maturity, will be made only at par, with a refund of any accrued interest which may have been paid at the time of purchase of the note. If a note is acquired by a banking institution through forfeiture of a loan, payment will be made at par and the accrued interest payable as of the date of acquisition.

§ 331.17 *Execution of request for payment.* The owner in whose name the note is inscribed must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment, establish his identity, and in the presence of such officer sign and complete the request for payment appearing on the back of the note. After the request for payment has been executed, the witnessing officer should execute the certificate provided for his use.

§ 331.18 *Officers authorized to certify requests for payment.* All officers authorized to certify requests for payment of United States Savings Bonds, as set forth in Treasury Department Circular No. 530, Sixth Revision (Part 315 of this subchapter), as amended, are hereby authorized to certify requests for cash redemption of Treasury savings notes

issued under this circular. Such officers include, among others, United States postmasters, certain other post office officials, officers of all banks and trust companies incorporated in the United States or its organized territories, including officers at branches thereof, and commissioned and warrant officers of the Armed Forces of the United States.

§ 331.19 *Presentation and surrender.* Notes bearing properly executed requests for payment must be presented and surrendered to any Federal Reserve Bank or Branch or to the Treasurer of the United States, Washington 25, D. C., at the expense and risk of the owner. For the owner's protection, notes should be forwarded by registered mail, if not presented in person.

§ 331.20 *Partial redemption.* Partial cash redemption of a note, corresponding to an authorized denomination, may be made in the same manner as full cash redemption, appropriate changes being made in the request for payment. In case of partial redemption of a note, the remainder will be reissued in the same name and with the same issue date as the note surrendered.

§ 331.21 *Payment.* Payment of any note, either at maturity or on redemption before maturity, will be made by any Federal Reserve Bank or Branch or the Treasurer of the United States, following clearance with the agency of issue, which will be obtained by the agency to which the note is surrendered. Unless otherwise instructed, payment will be made by check drawn to the order of the owner, and mailed to the address given in his request for payment.

SUBPART F—PAYMENT OR REISSUE TO OTHER THAN INSCRIBED OWNER

§ 331.22 *Death or disability.* In case of the death or disability of an individual owner, if the notes are not to be presented in payment of taxes, payment will be made to the duly constituted representative of his estate, or they may be reissued to one or more of his heirs or legatees upon satisfactory proof of their right; but no reissue will be made in two names jointly or as coowners.

§ 331.23 *Dissolution or merger of corporations, etc.* If a corporation or unincorporated body in whose name notes are inscribed is dissolved, consolidated, merged or otherwise changes its organization, the notes may be paid to, or reissued in the name of, those persons or organizations lawfully entitled to the assets of such corporation or body by reason of such changes in organization.

§ 331.24 *Bankruptcy.* If an owner of notes is declared bankrupt or insolvent, payment, but not reissue, will be made to the duly qualified trustee, receiver or similar representative if the notes are submitted with satisfactory proof of his appointment and qualification.

§ 331.25 *Creditors' rights.* Payment, but not reissue, will be made as a result of judicial proceedings in a court of competent jurisdiction, if the notes are submitted with proper proof of such proceedings and their finality.

§ 331.26 *Instructions and information.* Before executing the request for payment or submitting the notes under the provisions of this subpart, instructions should be obtained from a Federal Reserve Bank or Branch or from the Treasury Department, Division of Loans and Currency, Washington 25, D. C.

SUBPART G—GENERAL PROVISIONS

§ 331.27 *Regulations.* Except as provided in this part, the notes issued under this part will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing bonds and notes of the United States; the regulations currently in force are contained in Department Circular No. 300 (Part 306 of this subchapter), as amended.

§ 331.28 *Loss, theft or destruction.* In case of the loss, theft or destruction of a savings note immediate notice (which should include a full description of the note) should be given the agency which issued the note and instructions should be requested as to the procedure necessary to secure a duplicate.

§ 331.29 *Fiscal agents.* Federal Reserve Banks and their Branches, as fiscal agents of the United States, are authorized to perform such services or acts as may be appropriate and necessary under the provisions of this circular and under any instructions given by the Secretary of the Treasury, and they may issue interim receipts pending delivery of the definitive notes.

§ 331.30 *Amendments.* The Secretary of the Treasury may at any time or from time to time supplement or amend the terms of this part or of any amendments or supplements thereto, and may at any time or from time to time prescribe amendatory rules and regulations governing the offering of the notes, information as to which will promptly be furnished to the Federal Reserve Banks.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be impracticable with respect to this part. This is a matter of fiscal policy and it was deemed inadvisable to make determination with respect thereto at an earlier date.

[SEAL] E. H. FOLEY,
Acting Secretary of the Treasury.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5801]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BERKSHIRE MFG. CO.

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections—Producer status of dealer—Manufacturer;* Subpart—*Using misleading name—Vendor;* § 3.2445 *Producer or laboratory status of dealer or seller.* In connection with the offering for sale, sale and distribution of handkerchiefs in commerce, (1) using "manufacturing" or any other word of similar import in respondents' trade name; or otherwise representing, directly or by implication, that respondents manufacture the handkerchiefs sold by them; or, (2) using in advertisements or otherwise any photograph or picturization of a manufacturing plant in such manner as to represent or imply that such plant is owned or operated by respondents; prohibited.

(Sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Ralph Dweck et al. doing business as Berkshire Manufacturing Company, Docket 5801, March 10, 1951]

In the Matter of Ralph Dweck et al, Doing Business as Berkshire Manufacturing Company

This proceeding was heard by William L. Pack, trial examiner, upon the complaint of the Commission, the answer of the respondents, and hearings at which testimony and other evidence in support of and in opposition to the allegations of the complaint were introduced before said trial examiner, which testimony and other evidence were duly recorded and filed in the office of the Commission.

Thereafter the proceeding regularly came on for final consideration by the trial examiner on the complaint, the answer thereto, and testimony and other evidence (the filing of proposed findings and conclusions having been waived), and the trial examiner, having duly considered the record, and found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts, conclusion drawn therefrom, and order to cease and desist and order of dismissal.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order accordingly, under the provision of said Rule XXII, became the decision of the Commission March 10, 1951.

The said order to cease and desist is as follows:

It is ordered, That respondents Ralph Dweck, Bert Dweck, Isaac Dweck, Jack Dweck and David Levy, individually and as copartners trading under the name Berkshire Manufacturing Company, or trading under any other name, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of handkerchiefs in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "manufacturing" or any other word of similar import in respondents' trade name; or otherwise representing, directly or by implication, that respondents manufacture the handkerchiefs sold by them.

2. Using in advertisements or otherwise any photograph or picturization of a manufacturing plant in such manner as to represent or imply that such plant is owned or operated by respondents.

It is further ordered, That the complaint be, and it hereby is, dismissed as to respondent Solomon Levy, without prejudice to the right of the Commission to institute further proceedings against said respondent should future facts warrant such action.

By "Decision of the Commission and order to File Report of Compliance", Docket 5801, March 12, 1951, which announced fruition of said initial decision on March 10, 1951, report of compliance with said cease and desist order, was required as follows:

It is ordered, That respondents Ralph Dweck, Bert Dweck, Isaac Dweck, Jack Dweck, and David Levy shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have

complied with the order to cease and desist.

Issued: March 12, 1951.

By the Commission.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Supplementary Regulation 3]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 3—SALES BY PRINTERS ALLOWED TO BE EXCLUDED FROM GROSS SALES

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 3 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 22 allows manufacturers to elect not to use such regulation if their gross sales were less than $250,000 in their last fiscal year.

Many small printers produce and sell, among other things, newspapers, magazines, periodicals or other publications which are exempt from price control under the Defense Production Act of 1950. From available data and consultations with industry representatives, it appears that the dollar volume from the sales of these publications represent the major portion of gross sales of many of these small printers. It would not appear to be equitable to require printers to include in gross sales, the dollar volume resulting from the sales of those publications which are beyond price control. This action will not result in any inflationary price increases since sales of remaining commodities by printers are subject to price control under the General Ceiling Price Regulation.

In the judgment of the Director of Price Stabilization, the provisions of this Supplementary Regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

In formulating this supplementary regulation the Director has consulted with representatives of industry to the extent practicable under the circumstances and has given consideration to their recommendations.

REGULATORY PROVISIONS

Sec.

1. What this supplementary regulation does.
2. Sales by printers allowed to be excluded from gross sales.
3. Definitions.

AUTHORITY: Sections 1 to 3 issued under sec. 704, Public Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This Supplementary Regulation 3 modifies section 1 of Ceiling Price Regulation 22 by allowing printers to exclude certain sales in computing gross sales.

SEC. 2. *Sales by printers allowed to be excluded from gross sales.* On and after the effective date of this Supplementary Regulation 3, printers, otherwise subject to Ceiling Price Regulation 22, in computing whether or not their gross sales are less than $250,000 for their last

fiscal year, so as to exercise the option not to use such regulation, may exclude from their gross sales the amount of sales attributable to the sales of newspapers, magazines, periodicals or other publications which are exempt from price control under the Defense Production Act of 1950.

All other provisions of Ceiling Price Regulation 22 are unaffected by this supplementary regulation.

SEC. 3. *Definitions.* (a) When used in this supplementary regulation, the term:

(1) "Printers" shall include all phases of the graphic arts industry including, but not limited to, photo-engraving, typesetting, electrotyping, stereotyping, plate making, printing, binding and related services in connection therewith.

Effective date. This supplementary regulation to Ceiling Price Regulation 22 shall become effective May 28, 1951.

[General Overriding Regulation No. 8, Amendment 1]

GOR-8—PAPER, PAPERBOARD, CONVERTED PAPER AND PAPERBOARD PRODUCTS, ALLIED PRODUCTS AND SERVICES

EXEMPTION OF SALES OF COMMODITIES WHICH HAVE EDITORIAL CONTENT, EXPRESS IDEAS OR DISSEMINATE INFORMATION AND SERVICES RELATED THERETO

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization General Order No. 2 (16 F. R. 738), this amendment to General Overriding Regulation 8 is hereby issued.

STATEMENT OF CONSIDERATION

General Overriding Regulation 8 created a clearing house for future exemptions for specific paper, paperboard, converted paper and paperboard products, allied products and services. This amendment exempts from all price control sales and deliveries of certain printed commodities whose primary value depends upon editorial content, expression of ideas or dissemination of information and the printing and allied services rendered in connection therewith. It also exempts for the year 1951 sales and services by persons whose printing business did not exceed $50,000 in 1950. Such exemption applies in any year subsequent to 1951 when sales in the preceding calendar year do not exceed $50,000.

In 1947, according to official statistics of the U. S. Department of Commerce, the printing, publishing and related industries, including typesetting, platemaking and similar services, consisted of 28,986 establishments employing 715,000 persons, and producing goods and services valued at approximately 6.4 billion dollars.

The Congress, in writing the Defense Production Act of 1950, specifically exempted from price control sales of books, magazines, periodicals and newspapers which, in 1947, amounted to 3.7 billion dollars, or about 60 percent of these industries total value of products.

This amendment extends exemption from control to a number of other articles whose primary value, like the articles specifically exempted by Congress, depends upon their editorial content, or expression of ideas or dissemination of information and to services rendered in connection with their production; it also exempts from control all the products and services performed by persons engaged primarily in these industries and having gross sales of not more than $50,000 for the calendar year of 1950. The value in 1947 of products and services of the latter group are estimated to have been between 300 to 600 million dollars. It is estimated that most of the business of the approximately 21,000 small firms with annual sales of not more than $50,000 is exempt from control by congressional action and this amendment; exemption of the smaller printer from any control merely removes from regulation the balance of his sales.

Printing and allied services are characterized by the presence of a higher number of small firms which account for a relatively low percentage of the industry's total value of production. The high number of establishments and the fact that wages, the most important element of cost in most segments of these industries, are generally uniform throughout a given area, result in a competition for available work which is particularly keen among small concerns and frequently result in work being taken at a price which will cover only cost or part of costs. Consequently, as shown below, the net operating profits, before federal income taxes, for establishments with annual sales of not more than $50,000 are consistently well below the industry average and the average for large firms.

TABLE 1.—*Printing industry: Ratio of net operating profit to sales, before Federal income taxes, for specified sizes of establishment, 1946-1949*

Year	Less than $35,000	$35,000 to $75,000	$500,000 to $750,000	$1,000,000 to $1,500,000	$1,500,000 and over	Industry average
1946	4.34	8.56	9.50	12.48	10.77	10.53
1947	5.75	7.33	9.81	10.15	9.72	9.58
1948	7.28	6.48	8.15	9.20	9.65	9.11
1949	2.99	4.90	5.81	6.96	8.90	7.50

This amendment is necessary because now, as during the price control program of World War II, the high number of establishments and the heterogeneous nature of the commodities and services involved would make administration of an effective price control program extremely difficult. It is believed that action taken in this amendment will not result in inflationary price increases because of the close competition which characterizes this industry and because the prices charged by the larger firms, which will remain subject to control, will prevent such price increases.

All exemptions provided for the commodities and services covered by this amendment were also exempt from control under OPA. With regard to those commodities and services covered by section 3 of this amendment, however, exemption under OPA was extended only to those firms having annual sales of less than $20,000. This amendment recognizes that increases in labor, raw materials and general operating costs since World War II have been reflected in higher prices and, to assure coverage of approximately the same group provided for under OPA, it is made applicable to establishments with annual sales of not more than $50,000.

Taking into consideration the above facts, the Director of Price Stabilization finds that amendment 1 to the General Overriding Regulation 8 is generally fair and equitable and contains such classifications and differentiations as in his judgment are necessary and proper to effectuate the purposes of the Defense Production Act of 1950.

AMENDATORY PROVISIONS

Section 1 (a) of General Overriding Regulation 8 is amended by the addition of subparagraphs (2) and (3) after subparagraph (1), as follows:

(2) Sales of commodities whose primary value depends upon editorial content, expression of ideas or dissemination of information and the rates, fees, charges, or compensation for the services of printing, publishing, typesetting, plate making, binding, or related services in connection with such commodities, including, but not limited to, books, magazines, periodicals, newspapers, materials furnished for publication by any press association or feature service, pamphlets, leaflets, sheet music, music rolls, stamp albums, globes, maps, charts, catalogs, directories, programs, house organs, menus, advertising matter printed on paper (except such articles as containers, labels and book matches, the form of which serves a purpose other than that of advertising), time tables, tariffs and price lists.

(3) Sales of all papers and paper products when sold by persons engaged primarily in the business of publishing, printing, typesetting, plate making, binding, or rendering related services, or any combination thereof, whose total gross sales in the calendar year 1950 of printed papers and printed paper products and services in connection therewith did not exceed $50,000. This exemption applies in any subsequent year when such total gross sales in the preceding calendar year did not exceed $50,000: *Provided*, That records of such total gross sales for 1950 and any subsequent year of printed paper and printed paper products and services in connection therewith be maintained and preserved for inspection by the Office of Price Stabilization for the life of the Defense Production Act of 1950 and for two years thereafter.

Effective date. This amendment shall become effective on May 19, 1951.

[NPA Order M-55A]

M-55A—FARM EQUIPMENT, THIRD QUARTER 1951

This order is found necessary and appropriate to promote the national defense and is issued pursuant to authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this order consultation with industry representatives was impracticable due to the necessity for immediate action and because the order affects a large number of users in different segments of the industry.

2. Definitions.
3. Limitation of production.
4. Authorization of rating.
5. Effect of other regulations and orders.
6. Certification of ratings.
7. Inventory limitations.
8. Application for adjustment or exception.
9. Records and reports.
10. Communications.
11. Violations.

AUTHORITY: Sections 1 to 11 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this order does.* This order authorizes producers of farm equipment to apply a rating to obtain delivery of production materials and component parts for July, August, and September 1951 consumption and use, and limits production of farm equipment during such period.

SEC. 2. *Definitions.* As used in this order:

(a) "Farm equipment" means any item of farm machinery, equipment, or repair parts listed in Schedule I of this order.

(b) "Producer" means any person engaged in the manufacture or production of farm equipment.

(c) "Production material" means aluminum, copper, steel, or zinc.

(d) "Component part" means a component part required to be physically incorporated into or attached to any piece of farm equipment, and includes textiles.

(e) "Base period" means the period commencing July 1, 1949, and ending June 30, 1950.

(f) "Third quarter 1951" means the months of July, August, and September 1951.

(g) "Third quarter 1951 requirements" of any production material means the tonnage required by a producer for his July, August, and September 1951 consumption of such production material, limited, however, to the tonnage of such production material required by such producer to manufacture, at his option, either of the following percentages of the total quantity by weight of farm equipment produced by him during the base period: (a) 25 percent thereof, or (b) the percentage thereof actually produced by him during the months of July, August, and September 1949. In determining the tonnage of any production material so required, a producer shall exclude the tonnage of such production material included in those component parts not manufactured by him but incorporated by him into such farm equipment.

(h) "Third quarter 1951 requirements" of any component part means the quantity required by a producer for his July, August, and September 1951 production of farm equipment (measured by units in group classifications in accordance with trade custom or industry practice).

SEC. 3. *Limitation of production.* During the third quarter 1951 no producer shall manufacture more than either of the following percentages of total quantity by weight of farm equipment produced by him during the base period: (a) 25 percent thereof, or (b) the percentage thereof actually produced by him during the months of July, August, and September 1949, whichever is greater.

SEC. 4. *Authorization of rating.* It is the intent of NPA that there shall be made available to each producer of farm equipment his third quarter 1951 requirements of each production material and each component part and that, pending the making of allotments under the Controlled Materials Plan for the third quarter, each producer of farm equipment shall be authorized to apply ratings to obtain delivery of 92 percent of his said third quarter requirements. Accordingly, each producer of farm equipment is hereby authorized to apply, until September 30, 1951, a DO-87 rating to obtain delivery of not to exceed 92 percent of his third quarter 1951 requirements of each production material and of each component part: *Provided,* That no producer shall place orders calling for delivery in any one month of more than 40 percent of his third quarter 1951 requirements of any production material, unless such 40 percent is less than the minimum quantity procurable under existing trade or industry practice, or the minimum mill quantity established by applicable NPA orders or regulations, in which case the producer may place rated orders for such minimum quantity of such production material for delivery in any one month. DO-87 rated orders for third quarter 1951 requirements must be placed in accordance with lead time requirements of applicable NPA orders. No producer shall apply a DO-87 rating, and no other person shall extend a DO-87 rating, to secure a production material or a component part except to a person who during the 2 years preceding the effective date of this order has been a regular supplier of the producer so applying or other person so extending: *Provided, however,* That a producer may place a DO-87 order with a new supplier whenever an order for needed production material or a component part or parts has been rejected by his regular supplier because of the provisions of any NPA order or regulation, or because the needed production material or component part is no longer manufactured or handled by the regular supplier.

SEC. 5. *Effect of other regulations and orders.* When a DO-87 rating is applied by a producer to a supplier, it may be extended in accordance with NPA Reg. 2 (except in those cases mentioned in the last sentence of this section), but no person shall apply or extend a DO-87 rating except in accordance with the provisions of this order and said Reg. 2. The provisions of this order shall prevail over such provisions of NPA Reg. 2 as may be in conflict herewith, but all other provisions of NPA Reg. 2 shall continue in full force and effect. Until the Controlled Materials Plan becomes fully effective, no producer shall use any quantity of aluminum or copper exceeding the percentage thereof used by him in relation to the quantity of carbon steel used by him during the months of January, February, and March 1951. Any producer of component parts who has received special authorization from NPA to adjust his base quota to permit use of additional aluminum, copper, copper forms or products, or zinc, for component parts for farm equipment shall reduce any such additional use of any such material by an amount equal to the quantity of such material which he obtains by the use of the DO-87 rating.

SEC. 6. *Certification of ratings.* When a person applies or extends a DO-87 rating, the certification shall read as follows:

Certified under NPA Order M-55A and NPA Reg. 2

Such certification constitutes a representation to the recipient and to NPA that the person applying or extending the rating is authorized under the provisions of this order to so apply or extend a DO-87 rating.

SEC. 7. *Inventory limitations.* Nothing in this order shall be construed as modifying the provisions of NPA Reg. 1 with respect to practicable minimum working inventories, or the provisions of any NPA order establishing limitations with respect to the inventory of any production material. Accordingly, no producer shall apply, and no other person shall extend, a DO-87 rating to order any production material for delivery at a time when his inventory thereof exceeds, or by receipt of the material covered by the order would be made to exceed, the inventory permitted by all applicable NPA regulations and orders.

SEC. 8. *Application for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 9. *Records and reports.* (a) Each person participating in any transaction covered by this order shall retain in his possession for at least 2 years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 10. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C. Ref: M–55A.

SEC. 11. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of the National Production Authority or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with said Federal Reports Act of 1942.

This order shall take effect on May 11, 1951.

Class B. Companies having annual operating revenues exceeding $100,000 but not more than $250,000.

Class C. Companies having annual operating revenues exceeding $50,000 but not more than $100,000.

Such companies are not required to comply with the more detailed reporting requirements contained in the rules respecting such higher classification.

(c) It is recommended but not required that Class D companies keep all of the accounts prescribed in this system of accounts or the accounts listed in § 33.94.

(d) The initial classification of a company shall be determined by its lowest annual operating revenues for the three immediately preceding years. Subsequent changes in classification shall be made when the annual operating revenues show a greater or lesser classification for three consecutive years. A draw line shall be reeved through the lower ends of both poles and the top of one, and the upper end of this line shall be spliced to a length of chain. The two tunnel walls must be overlapped as far as possible across the pot gap and the draw line must be pulled tight so as to completely close the bottom of the tunnel. The pole on the right side of the pot gap, as viewed from the shore, must be painted bright red above water and the pole on the left bright green. Serially numbered seals issued by the Fish and Wildlife Service shall be affixed around the top rib lines and webbing of both tunnel walls next to each pole and a link of the chain must be included in one of the seals. "FUNCTIONAL MUSIC" OPERATIONS

POLICY STATEMENT

MAY 4, 1951.

On April 11, 1951, the Commission addressed the following letter to 4 FM stations engaged in "Functional Music" or "Planned Music" operations, stating that certain aspects of such operations are not in accordance with the Communications Act and the Commission's rules and regulations and requesting them to inform the Commission by April 30, 1951, as to how they propose to achieve compliance with all lawful requirements:

We have your letter of * * *, 1951, informing us of your comments concerning the questions raised in our communication to you of January 29, 1951, with regard to the consistency of the "beep" operations in which your FM facility is engaged, with the obligations of licensees of broadcast stations, as enunciated in the Communications Act and the Commission's rules and policies in the public interest.

It may be remarked at the outset that the Commission has devoted considerable effort to analysis of FM's problems, and is fully cognizant of the character of the financial difficulties which such licensees have encountered in the past several years; it accordingly views with sympathy attempts on the part of pioneers in this meritorious, and, as yet, in the main unprofitable, field of broadcasting, to ensure the solvency of their operations. However, we are constrained to conclude from our study of your replies to our inquiries, that the "beep" services in which you are presently engaged, are inconsistent with basic statutory and administrative duties incumbent upon licensees of broadcast facilities.

In the first place, contrary to the interpretation urged in your letter, we are of the view that the contractual arrangements governing your transmission of this "special service" affirmatively commit your FM station to provide subscribers with predominantly "planned music" during the stipulated periods. It of course follows from this construction, that in the light of the protracted—or indefinite—future periods during which you are bound under the relevant agreements, to provide this specific type of programming during such a substantial portion of the broadcast day to subscribers thereto, these arrangements must be considered to constitute an invalid abdication of your duty as a licensee to retain discretion, responsibility and control, and to remain free to alter your service as the changing needs of the public in your area may require.

Similarly, the Commission is of the opinion that since the remuneration received by you for transmission of the "planned music" in question under these agreements is based upon the payments therefor made by the individual subscribers concerned, such subscribers are the sponsors of such programs within the meaning of section 317 of the Communications Act. Hence your failure to announce and to log this material as sponsored and to make other required announcements is in plain contravention of Section 317 of the Communications Act and of §§ 3.281, 3.289, 3.284, 3.287, and 3.288 of the Commission's rules and regulations.

Further, the Commission considers that your practice, concededly integral to your "beep" operations under the instant agreements, of confining your broadcasts of the various categories of intelligence required by the rules and the Statute to be carried by radio licensees, such as sponsorship and station identification announcements, to the material transmitted to the general public, while simultaneously eliminating them from reception by subscribers, is violative of the express terms of the relevant provisions of the act and of the Commission's rules and regulations: The requirements there stated are plainly of general application and contemplate that the categories of information there defined will be transmitted to the station's entire audience; they admit of no discretion on the part of the licensees to introduce exceptions thereto for the benefit of subscribers to "special services" or other selected listeners.

Your contention that radio operators enjoy equal privileges with non-licensees under the act, to employ mechanical or electronic devices to eliminate undesired broadcast material from reception, at the request of members of their audiences, is clearly inadmissible. Members of the public are free to

tune in or tune out any material they desire. Licensees are required to operate their stations in accordance with the requirements of the Communications Act and the Commission's rules and regulations. One of these requirements is that certain announcements be made to the audience. Obviously this obligation is not carried out when you broadcast a signal the very purpose of which is to prevent a portion of the audience from hearing those anouncements. You cannot prevent members of the audience from voluntarily tuning out such announcements. This does not, however, permit you to broadcast a tone which prevents a portion of the audience from hearing the announcements.

The Commission's conclusions with regard to the remaining questions raised in its letter of January 29, 1951, since they pertain not only to the "planned music" activities of the "beep" stations but to all types of "supersonic" operations—including the question as to whether such operations constitute point-to-point communication not authorized by the broadcast rules—will be issued when its study of the problems common to all these special services is completed.

In view of the foregoing, the Commission is of the view that your operations are not in accordance with the requirements of the Communications Act and the Commission's rules and regulations. This is being called to your attention pursuant to section 9 (b) of the Administrative Procedure Act so that you may have an opportunity, before further proceedings are instituted by the Commission, to submit a statement showing how you intend to achieve compliance with all lawful requirements. The statement should be submitted on or before April 30, 1951.

The above letter was addressed only to the 4 stations which had submitted in response to the Commission's request, extensive comments concerning the legality of their "Functional Music" operations. However, the Commission's determinations in the April 11th letter apply equally to all FM stations engaged in similar "Functional Music operations.

It is accordingly requested, pursuant to section 9 (b) of the Administrative Procedure Act, that every station engaged in the transmission of such a "Functional or Planned Music" service, submit a statement to the Commission indicating how it intends to achieve compliance with all lawful requirements. Licensees which have in the past engaged in "Functional Music" operations but have since discontinued such activities, should advise the Commission of the date on which such operations were discontinued.

Replies in response to this public notice should be submitted on or before May 22, 1951.

PANHANDLE EASTERN PIPE LINE CO.

ORDER SUSPENDING SUPPLEMENTS TO FILED RATE SCHEDULE

On April 9, 1951, Panhandle Eastern Pipe Line Company (Panhandle) filed five supplements to its presently filed and effective Rate Schedule FPC No. 113, covering the sale of natural gas to Michigan Gas Storage Company (Michigan Storage). The five supplements have been designated in the files of the Commission as Supplements 12, 13, 14 (in two parts designated A and B), 15 and 16 to Panhandle's Rate Schedule FPC No. 113.

Supplement No. 12 to Rate Schedule FPC No. 113 covers periodic increases in deliveries of natural gas for the years 1948 through 1952. Panhandle's maximum volume obligation pursuant to Supplement No. 12 is 29,446,000 Mcf. in 1951 and 31,440,000 Mcf. in 1952.

Supplements Nos. 13, 14, 15, and 16 to Rate Schedule FPC No. 113 contemplate substantial future increases in the specific volumetric obligations and entitlements of Panhandle and Michigan Storage respectively for the years 1951 through 1956, inclusive. These supplements, if permitted to become effective, would provide for the following specific annual volumetric obligations with respect to deliveries of natural gas by Panhandle to Michigan Storage:

Year:	*Scheduled obligation—Mcf.*
1951	31,446,000
1952	33,440,000
1953	35,440,000
1954	37,440,000
1955	37,440,000
1956	37,440,000

The specific volumetric obligations contemplated by the proposed Supple-

ments Nos. 13, 14, 15, and 16 to Rate Schedule FPC No. 113 may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

There is presently pending before the Commission the proceedings In the Matter of Panhandle Eastern Pipe Line Company, et al., Docket Nos. G-1116, G-1240, G-1317, G-1344, G-1417, G-1152, G-1415 and G-1379, in which one of the issues has been specified by the Commission as follows:

6. What would be a fair, reasonable and equitable distribution among present and prospective customers of the volumes of natural gas which will be available upon completion of the Trunkline and Panhandle facilities authorized in Docket Nos. G-882 and G-1317. (Commission's orders issued July 13 and 31, and November 30, 1950, and February 27, 1951, in Docket Nos. G-1116, et al.)

Michigan Storage, among other customers of Panhandle, has participated in the proceedings and has presented testimony with respect to its future requirements for natural gas from Panhandle.

Panhandle, in filing the aforementioned supplements has not requested any specific effective date. The supplements therefore, would take effect upon the expiration of the 30-day notice period, or on May 9, 1951.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Panhandle's proposed Supplements Nos. 13, 14, 15, and 16, and that said supplements be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, classifications and services provided in proposed Supplements Nos. 13, 14, 15 and 16 to Panhandle's Rate Schedule FPC No. 113.

(B) Pending such hearing and decision thereon said proposed Supplements Nos. 13, 14, 15, and 16 to Panhandle's Rate Schedule FPC No. 113 be and the same are hereby suspended and the use thereof is deferred until October 9, 1951, and until such further time thereafter as said supplements be made effective in the manner prescribed by the Natural Gas Act.

GENERAL PUBLIC UTILITIES CORP. AND JERSEY CENTRAL POWER & LIGHT CO.

SUPPLEMENTAL ORDER EXCEPTING CERTAIN STOCK FROM COMPETITIVE BIDDING REQUIREMENTS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the the 8th day of May, 1951.

By order dated March 14, 1951 (Holding Company Act Release No. 10444), as modified by order dated April 23, 1951 (Holding Company Act Release No. 10510), this Commission granted and permitted to become effective a joint application-declaration with an amendment thereto, of General Public Utilities Corporation, a registered holding company, and its public utility subsidiary, Jersey Central Power & Light Company ("Jersey Central"), proposing, inter alia, the issuance and sale by Jersey Central, pursuant to the competitive bidding requirements of Rule-50 promulgated under the Public Utility Holding Company Act of 1935 ("act"), of 40,000 shares of its Cumulative Preferred Stock, -- Percent Series.

On April 18, 1951, Jersey Central filed a further amendment with this Commission stating that, pursuant to the competitive bidding requirements of Rule U-50, it invited bids for the purchase of said preferred stock and in response to such invitation it received but one bid which it returned unopened, it being Jersey Central's opinion that effective competitive bidding was not possible under the circumstances.

Said amendment sought, inter alia, entry of an order of this Commission excepting said issuance and sale of preferred stock from the competitive bidding requirements of Rule U-50, so as to permit Jersey Central to enter into negotiations looking to the private sale of such stock.

Notice of the filing of said amendment having been duly given, and opportunity having been afforded all interested persons to request a hearing with respect to said requested exception, and the Commission not having received a request for hearing and not having ordered a hearing thereon; and

The Commission finding that compliance with the competitive bidding requirements of Rule U-50 (b) and (c) is not appropriate in the public interest or for the protection of investors or consumers as a condition to the exemption of such issuance and sale from the provisions of section 6 (a) of the act, or to aid the Commission (in carrying out the provisions of section 6 (b) of the act) to determine such terms and conditions as it may be appropriate to impose in the

public interest or for the protection of investors or consumers in exempting such issuance and sale from the provisions of section 6 (a) of the act;

It is hereby ordered, That the issuance and sale by Jersey Central of 40,000 shares of its Cumulative Preferred Stock, -- Percent Series, be, and the same hereby is, excepted from the competitive bidding requirements of Rule U-50 (b) and (c), subject, however, to the conditions prescribed by Rule U-24 and the further condition that such issuance and sale shall not be consummated until a further amendment shall have been filed with this Commission setting forth the terms and conditions under which any sale of such preferred stock is proposed to be made and a further order shall have been entered by this Commission in the light of such further information, which order shall contain such further terms and conditions, if any, as may then be deemed appropriate.

By the Commission.

LOUISIANA POWER & LIGHT CO.

ORDER EXTENDING TIME FOR DISPOSITION OF CERTAIN PROPERTIES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 9th day of May A. D. 1951.

Louisiana Power & Light Company ("Louisiana"), having purchased all of the outstanding shares of stock of The Grant Utilities, Inc. ("Grant"), which transaction was submitted to this Commission and was the subject of an order dated March 8, 1950 (Holding Company Act Release No. 9720), granting the application and permitting the declaration to become effective, and Louisiana having subsequently acquired all of the assets of Grant and having liquidated the latter company; and

Louisiana having previously undertaken to dispose of the water and ice facilities of Grant within one year from April 26, 1950, the date of the acquisition of the stock of such company, unless the Commission should extend such time; and

Louisiana having requested that the Commission extend the time for such disposition for an additional period of 12 months, and having represented that it had made certain efforts to dispose of such property which had not yet been successful; and

The Commission being of the opinion that sufficient showing has been made to warrant an extension of time for six months from April 26, 1951, for disposition of such properties, but being of the opinion that such facts do not justify an extension for the full period requested;

It is hereby ordered, That Louisiana Power & Light Company be and is hereby granted an extension of time until October 26, 1951, to dispose of the water and ice facilities acquired by it as part of the acquisition of the assets of The Grant Utilities, Inc.

Granite State Electric Company ("Granite State"), a public-utility subsidiary company of New England Electric System ("NEES"), a registered holding company, having filed a declaration, pursuant to section 7 of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, with respect to the following proposed transactions:

Granite State proposes to issue to The First National Bank of Boston a promissory note in the principal amount of $250,000, due six months after the date of issue and bearing the prime rate of interest for such notes at the time of issuance. It is stated in said declaration that the company expects that such interest rate will not exceed 2¾ percent. Granite State proposes to use the proceeds from such borrowing to pay for construction through June 30, 1951, and to pay off its promissory notes presently outstanding in the aggregate principal amount of $190,000 and bearing interest at the rate of 2¼ percent per annum.

The declaration indicates that the expenses in connection with the proposed transactions, consisting of payments to be made to New England Power Service Company, an affiliated service company, for services to be performed at cost, are estimated not to exceed $600.

The declaration states that no state commission has jurisdiction over the proposed transactions.

Granite State requests that the Commission's order herein become effective forthwith upon issuance.

The said declaration having been filed on April 6, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission having received no request for a hearing with respect to said declaration, within the period specified in said notice, and not having ordered a hearing thereon; and

The Commission finding with respect to the proposed transactions that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective, subject to the terms and conditions prescribed by Rule U-23; and the Commission further deeming it appropriate that the order herein become effective forthwith:

F. M. CANTRELL ET AL.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of May A. D. 1951.

In the matter of F. M. Cantrell, Rhoton P. Clift, and Phil B. Whitaker; File No. 70-2617.

F. M. Cantrell, Rhoton P. Clift and Phil B. Whitaker having filed with this Commission an application and amendments thereto pursuant to section 9 (a) (2) of the Public Utility Holding Company Act of 1935 with respect to the acquisition of shares of common stock of Chattanooga Gas Company ("Chattanooga"), a gas utility company, by the applicants who presently own, control, or hold with power to vote 5% or more of the outstanding voting securities of another public utility holding company, as follows:

The application indicates that the applicants own or control with power to vote 5 percent or more of the outstanding voting securities of Tennessee Natural Gas Lines, Inc., a public utility holding company, which company has on file with the Commission an application for exemption as a holding company pursuant to section 3 (a) (1) of the act. Applicants, along with approximately 53 other individuals who for the most part reside in Chattanooga, Tennessee, propose to acquire 195,000 shares (30 percent of the common stock of Chattanooga from Equitable Securities Corporation at a price of $3.30 per share. Of the 195,000 shares of common stock of Chattanooga, applicants propose to acquire an aggregate amount of 27,500 shares (which represents about 4.2 percent of the total outstanding common stock of Chattanooga) as follows: F. M. Cantrell, 7,500 shares; Rhoton P. Clift, 10,000 shares; and Phil B. Whitaker, 10,000 shares. The applicants state that such purchase is for investment only and

that no brokerage fees or commissions will be paid, but that the expenses of Phil B. Whitaker and the Trustees' fee for delivering the stock will be paid by adding one cent per share to the purchase price of all the members of the group.

The application further indicates that, after the proposed acquisition is effected, the applicants, together with Thomas W. Goodloe, Chairman of the Board of Directors of Chattanooga, will own in excess of 5 percent of the voting securities of Chattanooga and at least 5 percent of the voting securities of Tennessee Natural Gas Lines, Inc., of which Thomas W. Goodloe is Vice President and a Director. In the event the Commission approves the proposed transaction, applicants state that they, together with Thomas W. Goodloe, will file an exemption statement on Form U-3A-2, pursuant to Rule U-2 under the act, for exemption as a holding company by reason of the stock interests held by such applicants and Thomas W. Goodloe in Tennessee Natural Gas Lines, Inc.

Said application having been filed on April 20, 1951, and amendments thereto having been filed on April 26 and May 1, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said application, as amended, within the period of time specified in said notice, or otherwise, and not having ordered a hearing thereon, and

The Commission finding with respect to the application, as amended, that the applicable provisions of the act are satisfied and that no adverse findings are necessary, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application, as amended, be granted subject to the terms and conditions of Rule U-24, and the Commission further deeming it appropriate to grant the request of the applicants that this order become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935, and subject to the terms and conditions prescribed in Rule U-24, that said application, as amended, be, and the same hereby is granted, so as to permit consummation of the proposed transactions forthwith.

By the Commission.

WAYNE D. RUSE ET AL.

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of May A. D. 1951.

In the matter of Wayne D. Ruse, 406 Chickasha Street, Chickasha, Oklahoma; Benjamin E. Stearns d/b/a Stearns & Co., 926 Exchange Street, Rochester, New York; Warren Lee Sterling d/b/a W. L. Sterling Company, 114 East 52d Street, New York, New York; E. Van Benschoten, Hotel Roosevelt, 45th Street & Madison Ave., New York, New York; Charles J. Werner, 44 Whitehall Street, New York, New York; Matthew P. Wilson, 627 Park Avenue, Dunkirk, New York.

These are proceedings pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether the registrants named above, each of whom is registered as broker and dealer or as a dealer only, willfully violated section 17 (a) of the act and Rule X-17A-5 thereunder and, if so, whether it is in the public interest to revoke their registrations.[1]

The proceedings were instituted by separate notices and orders for hearing issued on January 22, 30, 31 and February 2, 1951, setting the hearing dates for March 7, 1951, as to all of the registrants except Wayne D. Ruse for whom February 26, 1951, was set as the date of hearing. On January 22, 31, February 2 and 6, 1951, copies of the notices and orders were sent by registered mail to the addresses last furnished us by the registrants. With the exception of the notices sent to Ruse and to Wilson, which were receipted for by persons other than the registrants, the notices were returned to us by the Post Office Department with notations indicating that the registrants could not be found at the addresses given. None of the registrants appeared in person on the dates set for hearing.[2]

On November 28, 1942, we promulgated Rule X-17A-5 under section 17 (a) of the act, which provides, among other things, that every registered broker or dealer must file with this Commission a report of financial condition during each calendar year commencing with the year 1943. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the press, and by distribution to persons on our mailing list.

The registrations of the registrants became effective prior to 1943 and have not been withdrawn, cancelled, revoked or suspended. Our records show that Van Benschoten failed to file the required reports during any year from 1945 through 1949, that Wilson failed to do so from 1946 through 1949 and that the remaining four registrants failed to file from 1943 through 1949.

Upon review of the records in these proceedings we have concluded that each of the registrants violated section 17 (a) of the act and Rule X-17A-5 thereunder as a result of his failure to file such reports. We conclude also that such violations were willful within the meaning of section 15 (b).[3]

We conclude, on the basis of the foregoing, that it is necessary in the public interest to revoke the registration of each of the registrants. However, in view of the fact that our records do not show whether any of them actually received personal notice of the scheduled hearings, and to avoid any possible prejudice to them, our order will provide that the revocation of registrations be without prejudice to a motion on the part of any registrant to reopen the proceedings and to seek, upon a proper showing, to set aside the order of revocation applicable to said registrant.[4]

Accordingly, it is ordered, That the registrations of Wayne D. Ruse, Benjamin E. Stearns, doing business as Stearns & Co., Warren Lee Sterling, doing business as W. L. Sterling Company, E. Van Benschoten, Charles J. Werner and Matthew P. Wilson be, and they hereby are, revoked without prejudice to a motion by any of the said registrants to reopen the record in the proceeding naming him, and, upon a proper showing, to set aside the order of revocation applicable to said registrant.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[2] Our orders and notices instituting these proceedings provided that the same be published in the FEDERAL REGISTER not later than 15 days prior to the dates of hearing.
